CALLING ALL CAREER CENTERS!

As one of 43 universities in the New America Public Interest Technology University Network, students at your school have special access to A BETTER TECH's October career fair.

This event is **FREE & FULLY VIRTUAL,** and is open to students interested in tech careers for the public good: CS, AI/ML, Information Science, Data Science, Public Policy, HCI, UX, Social Sciences, Arts, Humanities, Engineering, & other fields are welcome!

Schools that have already joined the virtual fair include:

Stanford University

Information School UNIVERSITY of WASHINGTON

NYU

PEPPERDINE | SCHOOL OF PUBLIC POLICY

TO GET STARTED:

1.) Email Rebekah Tweed, Assistant Producer for A BETTER TECH: rebekah.tweed@nyu.edu, so you can become a co-host! Students will be able to register on September 14.

2.) Share this information with your recruiting contacts! Know any companies or organizations that might want to recruit? Encourage them to register!

What Is Public Interest Technology (PIT)?

Public interest technology (PIT) is an emerging field in which technologists, designers, strategists, researchers, and policy makers leverage digital technologies to create more sustainable and inclusive economic and governance systems.

Examples of PIT Roles:

Careers in PIT can vary widely, and span areas of expertise within organizations engaging in public interest tech and responsible tech. Some examples might include:

- Policy Manager
- **Researcher, Human-Centered AI**
- Privacy Manager
- **Program Manager, Responsible Innovation**
- Data Scientist
- **Postdoctoral Researcher**
- UX Designer
- **DEI Director**
- **Fair & Responsible Banking Specialist**
- Social Trust Specialist
- **Trust & Safety Specialist**
- Senior Counsel, Responsible AI
- **AI Software Engineer**
- Applied Engineering Manager
